## Experience

### CRM Manager

Netherlands WindEnergy Association (NWEA)

Jan 2018 – Present · 3 yrs 11 mos

Utrecht Area, Netherlands

The Netherlands Wind Energy Association (NWEA) is the Dutch industry association working to increase sustainable wind energy on land and at sea, in the Netherlands and abroad. NWEA connects the wind sector in the Netherlands, and aims at accelerating the transition towards a renewable energy supply by spurring governments and businesses to invest in wind energy.

### Exhibitions Manager

IRO - The Association of Dutch Suppliers in the Oil and Gas Industry and Offshore Renewable Industry

May 2016 – Dec 2017 · 1 yr 8 mos

Rotterdam

[www.iro.nl](http://www.iro.nl)

### Marketing & Communication Manager

Offshore Independents

Aug 2015 – Apr 2016 · 9 mos

Rotterdam Area, Netherlands

### Van Oord

23 yrs 1 mo

#### Officer Procurement (Contracts Management/Improvement)

Feb 2014 – Jul 2015 · 1 yr 6 mos

Rotterdam Area, Netherlands

#### Communication Officer

Feb 2013 – Jan 2014 · 1 yr

Rotterdam

# Wind & water works

- Wind & water works represents and connects Dutch government, businesses and knowledge institutes in the NL wind sector
- Founding partners are **HHWE, IRO, NMT and NWEA** with **RVO**.  
By joining forces, we created a uniform brand to support NL companies (especially SMEs) to benefit from a collective approach towards global markets (“power in numbers”)
- The online portal supports our mission to create **international visibility**, reinforce the **network** and **exchange knowledge** within the global wind community. Combined with offline trade activities (fairs, missions, pre-PPS and PIB activities) this is a powerful platform to approach international stakeholders
- [www.windandwaterworks.nl](http://www.windandwaterworks.nl) #Windandwaterworks 

## Brazil & wind

- Great potential for (offshore) wind, but ambitions (policy) and actual realisation of projects needs **further exploration to see where NL can add value to BR market** and which key players we should target (developers, ports, contractors, government)
- **Cross-sectoral cooperation** with offshore (oil & gas), maritime & hydrogen industries will strengthen our joint NL proposition towards BR as a trusted partner in their energy transition ambitions
- **First factfinding mission** planned in February 2023 (wind & water works + CG in Rio de Janeiro\* <https://www.windandwaterworks.nl/events>)

*\* combined with a visit to FWS Houston, but participation in BR part only is possible, also for local representatives of NL companies located in BR already*
