About S.V.P. Sfeerbeheer

SVP Atmosphere Management designs and produces special events. Unlike conventional event agencies, the organization also takes the psychological aspect of events into account.

At the heart of their unique approach is attention to detail and an understanding of sensory engagement. They have developed their own methodology for this, the Smart Event & Communication Elevator. This methodology ensures that every aspect of the event is designed to create maximum impact and engage and connect guests from start to finish.

As a small team, they work together with a huge network of specialized partners, such as artists, psychologists, technical experts and designers. This partnership allows them to offer a wide range of expertise and skills, ensuring that every detail of the event is carried out by the most talented experts. Events are choreographed with precision, with even the subtlest elements designed to create the desired impact.

Great value is attached to a personal approach. Every project starts with an in-depth consultation, during which the vision, target group(s) and objectives of the client are discovered. Based on this, an experience is created that perfectly matches your brand and/or message.
